

8-104. Policy exception process.

This policy establishes the controls and activities necessary to appropriately protect information and information technology resources. While every exception to a policy or standard weakens the protection for state IT resources and underlying data, it is recognized that at times business requirements dictate a need for temporary policy exceptions. In the event an agency believes it needs an exception to this policy, the agency may request an exemption by following the procedure outlined in section 1-103.
